RETURN RECEIPT REQUESTED

Director John McNaughton
Ishpeming Carnegie Public Library
317 North Main Street
Ishpeming, MI 49646

Dear Director McNaughton:

Recently a staff member of the U.S. Environmental Protection Agency Water Division contacted your office regarding the need for citizens of your area to have an opportunity to view Michigan Department of Environmental Quality Wetlands Protection and Inland Lakes and Streams permit application materials. We thank you for consenting to act as the Repository for these documents. You should expect to receive two large binders shortly, which contain the original application and amended application. Included with this letter is a package of additional material to be included with the application. All of this material should be stored and presented together if requested.

Please hold these materials until we can be certain that the public comment period has ended. This material may be comfortably disposed after 90 days, you may wish to attach this letter to the last page of the document to use as a dated reference.

If there are any questions regarding the enclosure as listed below, please feel free to contact Melanie Haveman of my staff at (312) 886-2255. We appreciate your assistance in the public notification process.

Sincerely,

A handwritten signature in blue ink that reads "Peter Swenson".

Peter Swenson, Chief
Watersheds and Wetlands Branch
